

Baltic Olympiad in Informatics

Programme

Palanga, 2014

Foreword

The 20th Baltic Olympiad in Informatics is celebrated in Lithuania with 60 participants from 9 countries situated around the Baltic Sea.

It is a joyful event for us with the most gifted young programmers as well as the delegation leaders who are searching for, discovering and fostering pupils' talent in the field of informatics science. We are especially glad that the Olympiad is held at such a time when Europe is intensively seeking for possibilities to promote teaching of informatics and computer science not only in universities or colleges, but also in secondary schools and gymnasiums. There is a lack of IT professionals able to grasp what lies behind technologies, able to change them and innovative and smarter tools and technologies.
